

# Accessible Information Standard

---

The Accessible Information Standard aims to make sure that people with a disability, impairment or sensory loss have access to information that they can understand and any communication support they might need.

Should you have any requirements or know of a patient who needs support please let the Practice know and we will help provide support whether that is by providing information in large print or putting a patient in touch with British Sign Language (BSL), an interpreter, email or braille.

Further information can be obtained on the NHS website [www.england.nhs.uk/accessibleinfo](http://www.england.nhs.uk/accessibleinfo)

There are a large number of leaflets available in easy read format on the following website - [www.easyhealth.org.uk](http://www.easyhealth.org.uk)

Charities including Action on Hearing Loss, CHANGE, Sense and the Royal National Institute of Blind People (RNIB) will also be able to provide further support.

Please do not hesitate to contact the Practice if you have any questions.
